A sense of identity and of community as much as is possible
What you have got today should be preserved, not many villages have what you have achieved.
The quintessential character of life in a country village

The village is known for its attractiveness and its wonderful community spirit. However, by increasing the size - particularly by building of council houses will take away the reasons that it is so lovely - and turn Carlton into another messy village with no identity. This will destroy the community spirit that many of us treasure.

Village status
No new houses for profit eg ex homes etc
The countryside, village green spaces, no more horrendous-looking ugly big houses
Lack of change - especially development and infill.
I would not like the village grow larger and become a commuter village.
Small village status
A village community
The village boundary and village pub [in Nailstone?]
No large growth in size
Restrictions to house building i.e. Small developments
Its size prevent further building
its size and density of property [buildings] size
No more building developments
Size of the village should be maintained as it is. There should be more restrictions on selling a house, knocking it down and developing the land

Keep small village
Peace/quiet/size of village
Resist housing development on every scrap of land and prevent over development of sites by too many houses or too large buildings on plots

Quiet rural setting.
Its settlement boundary; its better buildings; mature trees; footpath access to the countryside;

10.4 What should we try to change?

Why should we try and change Carlton? If you want something you can't find here there are plenty of other places to live. I do feel this questionnaire is biased towards those council views that want to bring about changes to our village for their own benefit. Too many people are being rewarded for property development which impacts adversely on those who moved here because it was such a peaceful place.

Nothing I quite like everything just how it is thank you.

I'd like it to remain as it is!

Nothing - less infill and development.

Sometimes no change is good

Nothing comes to mind

Nothing Nothing Nothing Nothing Nothing Nothing nothing nothing nothing nothing nothing

nothing nothing nothing nothing nothing Nothing Nothing

Everything

Buy land for all to use, build some small starter homes

Tendency to become dormitory village

I would like to see smaller more affordable houses encouraged, however restricting ownership would, I believe, be inappropriate and impossible to enforce.

Don't keep Carlton frozen in time, build affordable houses so locals can stay & doesn't become dormitory for ex-city dwellers

Prevent housing being built. Community is a nice size.

Allowing unsympathetic housing

Need a means of younger people to afford housing or its inevitably going to become a community of marooned ageing population

Poor planning decisions

Unsuitable planning for houses

Any further developments.

Cheaper houses

No more small houses packed together, no more developments

Giving planning permission for houses to be built as soon as a viable plot is available.

Cramming new building into a full village.

Housing for local people

Stop out of character houses

Affordable housing

The obsession with new buildings and 'affordable housing'

Please try to save Anne's house (school mistress house) from developers

Build local industrial units

Develop church into more accessible community resource for both church goers and non church goers

Playground, use church for community

Quiz night at pub

More activities /facilities

Place for children to meet & play. now use path, drive ,frt garden

Build playground, village hall

Provide a focal point for village activities
Encourage more people to join in village activities
Social activities only happening in west part of village
Pub - hopefully will improve
Use of the pub
More community venues for social gathering
Provide meeting point
Improve village cohesion and facilities
Maintain preservation.
Have a village hall
Improvement of village cohesion and facilities.
Develop the village hall idea
A focal point i.e. Village hall
Part of the pub would be good to be used for newspapers, milk, bread a few basics for people to
Village shop/path to Bosworth
Some kind of basic shop facility would give 'heart' to the village - papers, milk - and encourage more interaction between residents.

Pathway to Bosworth
Pathway to Bosworth
Shop/path to Bosworth
Put in cycle path to MB
Off road side, safe pathway to Bos
Get path to Bosworth, play area/community space
For me an area for children and a path up to Bosworth would make life so much easier for rural living with adolescents and smaller kids.

Improvements to road surface and footways
Yellow lines to stop double parking
Install solar speeding signals
Speeding traffic nr church corner as cars are parked on bend
